

FLEXUS SURR 100

WIRELESS SURROUND SOUND SPEAKERS

SURROUNDED WITH AWESOMENESS

Adding Klipsch Flexus Surround Speakers elevates the performance of your home theater system thanks to immersive Dolby Atmos technology. By creating a true multichannel surround sound setup, you'll hear music, movies, and games placed in 3D around and above you for a realistic, multidimensional experience.

POWERED BY ONKYO

We've teamed up with Onkyo, combining their decades of proven manufacturing and tech prowess with our classic Klipsch acoustics, to ensure your home entertainment system is as epic in audio quality as it is in reliability.

SIMPLE SETUP, SLEEK STYLE

Individually powered with no junction boxes or power adapters to conceal, the Flexus Surround Speakers are a streamlined solution for multichannel home theaters. Because the controls, power and LED lights are hidden below the surface, you don't have any distractions in a pitch-black room – just awesome sound and clean aesthetics.

FLEXIBLE PLACEMENT

With a 1/4-20 threaded insert on the back and power conveniently located on the bottom, Flexus Surrounds can be wall mounted for maximum immersion or used on a flat surface.

INDEPENDENTLY POWERED

We're keeping it simple: No adapters, no dongles, no speaker wires to fuss with here. Each Flexus Surround Speaker independently plugs into a wall outlet with one discrete power cable, nothing required between speakers or lying on the floor.
